Dear Friends,

The Blue Hope Bash is the premier charity gala advancing the mission to end colorectal cancer. Benefiting the Colorectal Cancer Alliance — the nation's largest nonprofit dedicated to ending this disease — the Bash is a powerful moment that inspires action and support for programs impacting patients, caregivers, survivors, and family members.

The Bash will spotlight the patient experience from diagnosis to survivorship, emphasizing how research and advocacy shape one's path through this disease. Through Project Cure CRC, the Alliance is mobilizing a national movement — a philanthropic drive fueled by bold vision and decisive action toward a cure.

By participating in the Bash, you join a collective force determined to make a difference. The Alliance, like the community we serve, is finding the courage to press on — and to act.

Since the Alliance was founded in 1999 by a group of volunteer advocates, action has always been our foundation. We've counted on one another to step up, speak out, and lead the way forward. This year, our Bash leaders and chairs are **Cory and Cayley Tull**, who are inspired by personal loss to create an experience that will both educate and activate hearts and minds. We are also proud to honor the incredible **Craig Melvin and Lindsay Czarniak** for their continued dedication to our mission.

We hope you will stand with the Alliance at the Blue Hope Bash — a night of purpose, unity, and impact. Together, through action, we can find the courage to end this disease in our lifetime.

Michael Sapienza
CEO, Colorectal Cancer Alliance

ABOUT THE ALLIANCE

The Colorectal Cancer Alliance exists to end this disease in our lifetime. Founded in 1999 by a group of volunteer advocates, the Alliance is now the largest nonprofit dedicated to colorectal cancer in the world. Every day, we revolutionize research, treatment, awareness, and prevention to save lives. Through community-based interventions, cutting-edge research, and innovative patient-centric cancer care programs, the Alliance is driving real change. The Blue Hope Bash makes action possible, raising funds to ensure more people survive colorectal cancer.

OUR 2024 IMPACT:

20,164 patients assisted via live or clinical navigation, identifying 45,000 barriers to care

13,348 participants in the Walk to End Colon Cancer across 16 cities

22 researchers funded by Project Cure CRC

87,528 hours of ally volunteerism

21,171 test recommendations provided via the screening quiz

7 billion impressions across all media

1,490 comfort bags given to patients at cancer centers

OUR GOALS

Raise the screening rate to 80% and save 100,000 lives.

Improve the five-year survival rate of mCRC from 13% to 35%.

Invest and influence \$500 million in CRC research.

The Alliance's Life-Saving Work

We advocate for prevention to save lives.

Each year, we deliver tens of thousands of screening recommendations, provide thousands of test kits and colonoscopies to high-risk individuals, and share the power of prevention through targeted media, partnerships, and events.

We magnify support to improve outcomes.

The Alliance provides one-on-one navigation through our free Helpline and chat, streamlines access to support and resources through our patient and caregiver hub BlueHQ, and builds community with online and on-the-ground activations and programs.

We accelerate research to end this disease.

Project Cure CRC is assembling the largest colorectal cancer patient registry in the world; fast-tracking new therapies; funding high-risk, high-reward science; and innovating patient care. By combining powerful science, vast patient data, and a nationwide network, we can shift from incremental progress to transformational change.
